

STATISTICAL SCENARIO IN THE U.T.

With the increasing involvement of the state in welfare activities, there is a growing need for statistics in all productive activities and their presentation in a meaningful framework to facilitate decision making. This led to the creation of Directorates of Economics and Statistics (DES) in all States and Union Territories. For the purpose of co-ordination of Statistical activities of the U.T and for the promotion of Statistical standards, the Directorate of Economics and Statistics was set up in August 1957 in the U.T of Puducherry. The main thrust of the Directorate in the initial years was to serve as a focal point of information on various subject matter fields of statistics. DES has been declared as Nodal Agency for all the statistical activities of the Union Territory of Puducherry during 1982. Since then DES is acting as the Nodal Agency and Statistical Authority for developing and managing the statistical system in the Union Territory.

The Directorate has witnessed continuous growth over the years and the responsibilities of the Directorate both in terms of scope and nature of work has increased considerably. The Statistical Science has assumed paramount importance for socio-economic planning and policy formulation in recent years. DES plays a key role in building up of a sound data base covering various sectors of the U.T economy and provides valuable inputs for planning and policy formulation. Thiru. T.T.GAMDIK, I.A.S., is the Secretary (Statistics) for DES. The Director, Shri. S.VAITTIANADANE is the Head of Department.

The functional and organizational structure of the Directorate of Economics and Statistics in the past 50 years has experienced phenomenal growth to meet the growing demands of the statistical system. Many new units have also been set up in the DES as well as in other Departments/Agencies with a view to revitalize the activities of the Directorate and for meeting the growing demands for socio-economic statistics in respect of the Union Territory. Both the delivery system and the style of functioning of the DES have been dynamically designed to offer

timely and efficient information service to the user agencies. The statistical technique has been simplified over the past decades with enormous visual aids so that any common man can understand and appreciate the basis of statistics.

The DES provides technical assistance in statistical matters to the U.T. Government and other Government Departments, viz.,

- ❖ Guidance in conduct of survey/ study.
- ❖ Population projections.
- ❖ Preparation of Publications and
- ❖ Providing trained statistical manpower to other Departments/Agencies for undertaking survey/study as and when required.

The DES acts under the guidance of (i) Central Statistical Office, New Delhi, (ii) National Sample Survey Office, Kolkotta, (iii) National Buildings Organisation, New Delhi and (iv) Labour Bureau, Shimla. Also, DES keeps close liaison with various Ministries at the Centre and implements various Centrally Sponsored Schemes.

An officer in the rank of Joint Director in the Directorate has been designated as Public Relation Officer to look into the grievances of the staff and the public. Office procedure, rules and regulations as prescribed in the office manual are implemented strictly. A display board has been set up in the premises of the Directorate indicating the names of the officers and designation along with subjects dealt by them.

The DES has already published the fourth revised edition of the Citizen Charter. The DES also has a separate interactive website and all statistical information / publications / Citizen Charter / RTI particulars are also made available in the official Website of DES <http://statistics.puducherry.gov.in>

The population of the U.T of Puducherry as per 2011 Census was 12.47 lakhs and the Decadal Population growth rate is 28.1%. The density of population has increased from 769 persons per Sq. Km in 1961 to 2547 persons in 2011. The literacy rate has increased from 37.43% in 1961 to
