## PUDUCHERSN

GOVERNMENT OF PUDUCHERRY

ANNUJAL SUTRVEY OF INDUSTRTES

2008-09 \& 2009-10

DIRECTORATE OF ECONOMICS AND STATISTICS PUDUCHERRY

## PREFARE

The Annual Survey of Industries (ASI) provides detailed statistical information on the organized sector of industries regarding various parameters of capital structure, volume of employment, estimation of Value added, Net income, profit, structural ratios and technical coefficients by size of capital and employment change in growth, composition and structure of the organized manufacturing sector. The survey is conducted annually under the statutory provisions of the Collection of Statistics Act, 1953, and the rules framed there under in 1959. The coverage of Annual Survey of Industries extends to the entire factory sector comprising industrial units registered under sections $2(\mathrm{~m})$ (i) and $2(\mathrm{~m})$ (ii) of the Factories Act, 1948.

The Report of the Annual Survey of Industries 2008-09 and 2009-10 is the forty first issue in the series which is based on the results published by the Central Statistical Office, Ministry of Statistics and Programme Implementation, Government of India. The report contains two parts. The Part-I of the Report gives the scope and coverage of ASI frame along with a descriptive note on the definitions of various parameters and Part-II provides the statistical tables giving the description of industry at 2 digit level of NIC Code.

I would like to thank the Field Operation Division of National Sample Survey Office, Government of India for the collection of Field level data from the factories and the Central Statistical Office, Government of India for data processing and timely release of ASI results.

It is hoped that the present report on ASI 2008-09 \& 2009-10 will help the planners, policy makers interested in framing necessary policy for industrial development.

Any Comments/suggestions for improvement of this publication are welcome.

## Dr. S. VAITTIANADANE DIRECTOR

## PART-I

## CHAPTER - I

## INTRODUCTION

The Government of India extended the Collection of Statistics Act to the Union Territory of Puducherry in 1962. According to this Act, the Central Government is responsible for the collection of industrial statistics in order to enable the State Government to participate in the collection of industrial statistics. The Director of Economics and Statistics, Government of Puducherry has been declared as the Officer on Special Duty under the guidance of National Sample Survey Office, the statistical authority for the work in connection with the Annual Survey of Industries. Under this arrangement, a copy of the return submitted by the factories to the FOD, National Sample Survey Office, Puducherry is furnished to the Central Statistical Organisation, Ministry of Statistics and Programme Implementation, Kolkata for the purpose of tabulation of the results at State and all India level. The Annual Survey of Industries 2008-09 \& 2009-10 is the $45^{\text {th }} \& 46^{\text {th }}$ one conducted in the Union Territory of Puducherry and the results as consolidated by the Central Statistical Office, Government of India are represented in this report with various tables and Charts wherever necessary.

## Scope and Coverage

The coverage of the Survey extends to the entire factory sector. All the factories registered under sections 2 m (i) and 2 m (ii) of the Factories Act, 1948, which refer to the establishment using power and employing 10 or more workers and those not using power and employing 20 or more workers are covered in the Union Territory of Puducherry.

## ASI Frame

The ASI frame is based on the lists of registered factory/units maintained by the Chief Inspector of Factories in each state and those maintained by registration authorities in respect of bidi and cigar establishments and electricity undertakings. The frame is being revised once in three years from 1989-90 but updated every year by the regional offices of Field Operations Division of NSSO in consultation with the Chief Inspector of Factories in the state. At the time of revision, the names of the de-registered factories are removed
from the ASI frame and those of the newly registered factories are added. In spite of regular updating of the frame, quite a number of small-sized factories selected for the survey are found to be non-existing in the field and are termed as deleted factories. However, such factories are not taken into consideration for the purpose of tabulation and analysis in this report.

## Unit of Enumeration

The factory in the case of manufacturing industry, a workshop in the case of repair services, an undertaking or a licensee in the case of electricity, gas and water supply and an establishment in the case of bidi and cigarette industry are the primary units of enumeration in the survey.

## Form of Returns

The returns are submitted in the form prescribed for the purpose of Annual Survey of Industries under the "Collection of Statistics (Central) Rules 1959". As the data relating to a single factory cannot be published in view of the restrictive clause in the Act, safeguarding the interest of the owners, the industries in such case had been combined and data published for a group of factories.

Under Annual Survey of Industries 2009-10, some of the important features of the industrial activity of the Union Territory of Puducherry like capital structure and capital formation, employment and emoluments, input, output, value of product and by-products and net value added etc. have been summarised in Table - I \& 2. In subsequent tables, the results of Annual Survey of Industries 2008-09 have been presented for the factory sector for each industry group. The data and other particulars have been collected from the ASI Publication brought out by the Central Statistical Office, MOSPI, Kolkata.

## CHAPTER - II

## CONCEPTS AND DEFINITIONS

## 1. Reference year

For the Annual Survey of Industries 2008-09, the reference period was the accounting year from October, 2009 to April, 2010 and the survey was conducted in 2009-10.

For the Annual Survey of Industries 2009-10, the reference period was the accounting year from October, 2010 to April, 2011 and the survey was conducted in 2010-11.

## 2. Registered Factory

Registered Factory is one which is registered under sections $2 m$ (i) and $2 m$ (ii) of the Factories Act, 1948. The sections $2 m$ (i) and $2 m$ (ii) refer to any premises including the precincts thereof (a) wherein ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power or is ordinarily so carried on, or (b) whereon twenty or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on without the aid of power or is ordinarily so carried on.

## 3. Fixed Capital

Fixed Capital represents the depreciated value of fixed assets owned by the factory as on the closing day of accounting year. Fixed assets are those which have a normal productive life of more than one year. Fixed capital includes land including leasehold land, buildings, plant and machinery, furniture and fixtures, transport equipment, water system and roadways and other fixed assets such as hospitals, schools etc. used for the benefit of factory personnel.

## 4. Physical Working Capital

Physical Working Capital is the total inventories comprising of raw materials and components, fuels and lubricants, spares, stores and others, semi-finished goods and the finished goods as on the closing day of the accounting year. However, it does not include the stock of the materials, fuels, stores etc. supplied by others to the factory for processing and finished goods processed by the factory from raw materials supplied by others.

## 5. Working Capital

Working Capital is the sum total of the physical working capital as already defined above and the cash deposits in hand and at bank and the net balance receivable over amounts payable at the end of the accounting year. Working capital, however, excludes unused overdraft facility, fixed deposits irrespective of duration, advances for acquisition of fixed assets, loans and advances by proprietors and partners irrespective of their purpose and duration, long-term loans including interest thereon and investments.

## 6. Productive Capital

Productive Capital is the total of fixed capital and working capital as defined above.

## 7. Invested Capital

Invested Capital is the total of fixed capital and physical working capital as defined above.

## 8. Gross Value of Plant and Machinery

Gross Value of Plant and Machinery represents the total original (un-depreciated) value of installed plant and machinery at the end of the accounting year. It includes the book value of the newly installed plants and machinery and the approximate value of rented-in plants and machinery at the time of renting-in but exclude the value of rentedout plants and machinery. Total value of all the plants and machinery acquired on hirepurchase basis is also included.

## 9. Outstanding loans

Outstanding loans represent all loans whether short term or long term, whether interest bearing or not, outstanding according to the books of the factory as on the closing day of the accounting year.

## 10. Rent Paid

Rent Paid represents the amount of royalty paid in the nature of rent for the use of the fixed assets in the factory.

## 11. Interest Paid

Interest Paid includes all interest paid on factory account on loans, whether shortterm or long-term, irrespective of the duration and the nature of agency from which the loan was taken. Interest paid to partners and proprietors on capital or loan is excluded.

## 12. Rent Received

Rent received represents the amount of royalty received in the nature of rent for the use of the fixed assets in the factory..

## 13. Interest Received

Interest received includes all interest received on factory account on loans, whether short term or long term, irrespective of the duration and the nature of agency to which the loan was given. Interest received from partners and proprietors and proprietors on capital or loan are excluded

## 14. Workers

Workers are defined to include all persons employed directly or through any agency whether for wages or not and engaged in any manufacturing process or in cleaning any part of the machinery or premises used for manufacturing process or in any other kind of work incidental to or connected with the manufacturing process or the subject of the manufacturing process. Labour engaged, in the repair and maintenance or production of
fixed assets for factory's own use or labour employed for generating electricity or producing coal, gas etc. are included.

## 15. Employees

Employees include all workers defined above and persons receiving wages and holding supervisory or managerial position engaged in administrative office, store keeping section and welfare section, sales department as also those engaged in purchase of raw materials etc. or purchase of fixed assets for the factory and watch and ward staff.

## 16. Total persons engaged

Total persons engaged include the employees as defined above and all working proprietors and their family members who are actively engaged in the work of the factory even without any pay and the unpaid members of the co-operative societies who worked in or for the factory in any direct and productive capacity. The number of workers or employees is an average number obtained by dividing man days worked by the number of days the factory had worked during the reference year.

## 17. Man-days

Man-days represent the total number of days worked and the number of days paid for during the accounting year. It is obtained by summing-up the number of persons of specified categories attending in each shift over all the shifts worked on all days.

## 18. Wages and Salaries

Wages and Salaries are defined to include all remuneration in monetary terms and also payable more or less regularly in each pay period to workers as compensation for work done during the accounting year. It includes (a) direct wages and salary (i.e, basic wages/salaries, payment of overtime, dearness, compensatory, house rent and other allowances); (b) remuneration for the period not worked i.e. basic wages, salaries and allowances payable for leave period, paid holiday, lay-off payments and compensation for unemployment, if not paid from sources other than employers); (c) bonus and ex-gratia payment paid both at regular and less frequent intervals (i.e., incentive bonuses, good
attendance bonuses, productive bonuses, profit sharing bonuses, festival or year-end bonuses etc.) It excludes lay off payments which are made from trust or other special funds set up exclusively for this purpose i.e., payments not made by the employer. It also excludes imputed value of benefits in kind, employer's contribution to old age benefits and other social security charges, direct expenditure on maternity benefits, crèches and other group benefits. Travelling and other expenditure incurred for business purposes and reimbursed by the employer are excluded. The wages are expressed in terms of gross value i.e., before deduction for fines, damages, taxes, provident fund, employee's state insurance contribution etc.

## 19. Contribution to Provident Fund and other funds

Contribution to Provident Fund and other funds include old age benefits like provident fund, pension, gratuity etc. and employer's contribution towards other social security charges such as employees state insurance, compensation for work injuries and occupational diseases, provident fund linked insurance, retrenchment and lay-off benefits.

## 20. Workmen and staff welfare expenses

It include group benefits like direct expenditure on maternity, crèches, canteen facilities, educational, cultural recreational facilities and grants to trade unions, cooperative stores, etc. meant for employees.

## 21. Total Emoluments

Total emoluments is defined as the sum of wages and salaries, employer's contribution as provident fund and other funds and workmen and staff welfare expenses as defined above.

## 22. Fuels Consumed

Fuels Consumed represents total purchase value of all items of fuels such as coal liquefied petroleum gas, petrol, diesel, electricity, lubricants, water etc. consumed by the factory during the accounting year but excluding the items which directly enter into the manufacturing process.

## 23. Materials Consumed

Materials Consumed represent the total delivered value of all items of raw materials, components, chemicals, packing materials and stores, which actually enter into the production process of the factory during the accounting year. It also includes the cost of all materials used for the construction of building etc. for the factory's own use. It, however, excludes all intermediate products consumed during the accounting year. Intermediate products are those products, which are produced by the factory but are subject to further manufacturing.

## 24. Ex-Factory value

It represents all products and by-products manufactured is attained at the rate of net sale-value (inclusive of subsidies etc.) with respect to each of the items.

## 25. Total Input

Total Input comprises total value of fuels, materials consumed as well as expenditures such as cost of contract and commission work done by others on materials supplied by the factory, cost of materials consumed for repair and maintenance work done by others to the factory's fixed assets, inward freight and transport charges, rate and taxes (excluding income tax), postage, telephone and telex expenses, insurance charges, banking charges, cost of printing and stationery and purchase value of goods sold in the same condition as purchased. Annual of rent paid and interest paid is not included.

## 26. Total Output

Total Output comprises total ex-factory value of products and by-products manufactured as well as other receipts from non industrial services rendered to others, work done for others on materials supplied by them, value of electricity produced and sold, sale value of goods sold in the same conditions purchased, addition in stock of semifinished goods and own construction. Rent received and interest received are not included.

## 27. Depreciation

Depreciation is consumption of fixed capital due to wear and tear and obsolescence during the accounting year and is taken as provided by the factory owner or is estimated on the basis of cost of installation and working life of the fixed assets.

## 28. Net Value Added

Net Value Added is arrived by deducting total-input and depreciation from total output.

## 29. Components and accessories consumed

These are the portion of materials consumed and shown separately to represent as a special type of consumption.

## 30. Imported materials consumed on actual use

It comprise the portion of materials consumed that are imported from other countries. It may be raw materials or fuels or components and accessories of the input basket.

## 31. Semi-finished Goods

Semi-finished Goods refer to the imputed value of all materials which have been partially processed by the factory but which are not usually sold without further processing. It includes the work in progress for materials supplied by others, but excludes the value of semi-finished fixed assets produced for factory's own use.

## 32. Finished Goods

Finished goods are the ultimate products ready for sale. It does not require further processing but needs packaging and labelling etc.

## 33. Net Income

Net Income represents the factor shares of employees and entrepreneur in the net value added and is obtained by deducting the rent paid and interest paid from the net value added.

## 34. Profit

Profit is the excess of net income over the total emoluments and supplement to emoluments.

## 35. Net Fixed Capital Formation

Net Fixed Capital Formation represents the excess of net fixed capital at the end of accounting year over that at the beginning of the year.

## 36. Gross Fixed Capital Formation

Gross Fixed Capital Formation is obtained by adding depreciation to net fixed capital formation.

## 37. Gross Capital Formation

Gross Capital Formation is obtained by adding total addition in stocks of materials, fuel, semi-finished goods and finished goods to gross fixed capital formation.

## 38. Merging/Clubbing of Industries

If the number of factories under any industry / industry group is less than three, the data have been combined to 'other industry' (known as merged industry) to avoid the possibility of identifying a particular industry in a State.

## PART - II

## 1. Principal Characteristics

The aggregates of principal characteristics and the employment and emoluments for the survey year 2009-10 at State level and percentage rise over the previous year 2008-09 are presented in Table I \& II.

These tables show that in the survey year 2009-10, there were 671 number of factories were registered in the state, out of which 656 factories found in operation. These factories together had a total stock of Fixed Capital worth Rs.2,94,558 Lakhs, Productive Capital of Rs.5,39,928 Lakhs and Invested Capital of Rs.5,08,746 Lakhs. These factories provided gainful employment to 51,219 persons and spent 82,246 Lakhs on emoluments to employees. The value of total inputs consumed by these factories was Rs. $12,22,833$ Lakhs and they contributed by way of Value Added was Rs.3,84,544 Lakhs to the State Income.

During the previous survey year 2008-09, there were 675 factories in the State, out of which 663 factories found in operation. These factories together had a total stock of Fixed Capital worth Rs.3,17,107 Lakhs Productive Capital of Rs.5,65,729 Lakhs and Invested Capital of Rs.5,38,248 Lakhs. These factories provided gainful employment to 49,254 persons and spent Rs.67,241 Lakhs on emoluments to employees. The value of total inputs consumed by these factories was Rs.11,26,021 Lakhs and they contributed by way of Value Added by Rs.2,99,159 Lakhs to the State Income.

While comparing the figures of 2009-10 with that of the preceding year 2008-09, it is observed the total number of employees and total emoluments increased by $3.99 \%$ and $22.32 \%$ respectively.

The Working Capital and the Physical Working Capital had decreased by (-)1.31\% and (-)3.14\% respectively. The fixed capital and the invested capital have also decreased by (-)7.11\% and (-)5.48\% respectively in the year 2009-10 over the previous year 2008-09. The net value added, Net income and profits have increased by $28.54 \%, 31.69 \%$ and $34.82 \%$ respectively in the year 2009-10. As far as the employment and emoluments are concerned, it has been observed that they have shown an increasing trend except the
women who have been directly employed and unpaid family members/proprietor etc., which decreased by $11.61 \%$ and 6.54 respectively.

In general, many of the aggregates of principal characteristics of all the factories have shown an increasing trend in the year 2009-10 over the previous year 2008-09.

| 2 | Employers' Contribution, etc |  | 10224 | 13799 | 34.97 |

## 2. Structural Ratios and Technical Coefficients

## The Structural Ratios and Technical Coefficients are shown in Table-3

Fixed Capital per factory has decreased from Rs.478.29 Lakhs in 2008-09 to 449.02 Lakhs in 2009-10, thus showing a decrease of 6.12\% in the year 2009-10.

Working Capital per factory had decreased from Rs.375.00 Lakhs in 2008-09 to 374.04 Lakhs in 2009-10 showing decrease of $0.25 \%$, which means the availability of Working Capital was lower in 2009-10 over 2008-09 for running the factory. It was due to low quantity of raw materials, semi-finished goods and finished goods used for production. The Working Capital per worker had decreased to 6.08 Lakhs in 2009-10 from 6.32 Lakhs in 2008-09 showing decrease of $3.83 \%$ i.e., the availability of Working Capital per worker was low during the year 2009-10, when compared to the previous year 2008-09.

The number of workers per factory had increased from 59.36 Lakhs in 2008-09 to 61.57 Lakhs in 2009-10 showing an increase of $3.72 \%$, Similarly the wages per worker has also increased from Rs.0.64 Lakhs in 2008-09 to Rs.0.73 Lakhs in 2009-10, thus showing an increase of $13.54 \%$

Net income and profit per factory have increased by 33.09\% and 36.29\% respectively in 2008-09 over 2009-10.

Ratios of Fixed Capital to Value of output and Net Value Added have decreased by $17.39 \%$ and $27.74 \%$ in 2009-10 over 2008-09. But, the ratio of Net Value Added to value of output had increased by 14.31\% during the year under review over 2008-09.

## 3. Distribution of Factories

Table-4 and the following Chart show the Distribution of factories at 2 digit level of NIC Code with illustrative figures of industries in the years 2008-09 and 2009-10.

It is noticed from the table that there were 671 number of factories registered during the reporting year 2009-10, whereas 675 number of factories during the previous year 2008-09, thus thereby decrease in number of factories to the extent of $0.59 \%$.

It has been observed from the table that the industry group (NIC Code 22) Manufacture of Rubber \& Plastics Products had the largest share in number of factories both in the years 2009-10 and 2008-09. The number of factories was 116 (17.29\% of the total) in the year 2009-10 and it was 111 (16.44\% of the total) in the year 2008-09.

The industry group (NIC Code 20) Manufacturing of chemicals and chemical products had the second largest share in number of factories 2008-09. The number of factories was 107 ( $15.85 \%$ of the total) and the same industry group had the second largest share in number of factories in 2009-10. The number of factories was 96 (14.31\% of the total)

The industry group (NIC Code 15) Manufacturing of Leather \& related products, industry group (NIC Code 16) Manufacturing of wood and products of wood, industry group (NIC Code 22) Manufacturing of Rubber and plastic products, industry group (NIC Code 25) Manufacture of Fabricated metal products, industry group (NIC Code 27) Manufacture of Electrical equipments, industry group (NIC Code 28) Manufacture of Machinery and equipment, industry group (NIC Code 32) Other manufacturing have shown an upward movement in number of factories in 2009-10 over 2008-09.

The industry group (NIC Code 10) Manufacture of food products, industry group (NIC Code 11) Manufacture of Beverages, Industry group (NIC Code 13) Manufacture of Textiles, Industry group (NIC Code 17) Manufacture of Paper \& Paper products, Industry group (NIC Code 18) Printing \& Reproduction of recorded media, Industry group (NIC Code 20) Manufacture of Chemicals \& chemical products, Industry group (NIC group 21) Manufacture of Pharmaceuticals, medicinal chemical \& botanical products, industry group
(NIC Code 30) Manufacture of other Transport equipment, industry group (NIC Code 31) Manufacture of furniture, industry group (NIC Code 33) Repair and installation of Machinery and equipment, industry group (NIC Code Other) other have shown decreasing trend during the reporting year 2009-10.

The industry group (NIC Code 14) Manufacture of wearing apparel, industry group (NIC Code 23) Manufacture of Non-metallic mineral products, industry group (NIC Code 24) Manufacture of Basic metals, industry group (NIC Code 26) Manufacture of Computer, electronic \& optical products, industry group (NIC Code 29) Manufacture of Motor vehicles, trailers \& semi-trailers have reported the same number of factories namely 4, 21 and 10 respectively both in 2009-10 and in the previous year 2008-09.

TABLE -4
Distribution of Factories (NIC-08: 2 digit) 2008-09 \& 2009-10

## 4. Distribution of Fixed Capital

Table 5 and the following chart show the Distribution of Fixed Capital at 2 digit industries group (NIC 2008) with illustration of industries in the years 2008-09 \& 2009-10.

During the reporting year 2009-10, the industry group (NIC Code 23) Manufacture of other Non-metallic Mineral products had the largest share in the total fixed capital with Rs.54,183 Lakhs (18.39\% of total) showing decrease in Fixed Capital by 3.61\% over the previous year 2008-09. On the other hand, the industry group (NIC Code 22) Manufacture of Rubber \& Plastic products had the largest share in the total Fixed Capital with Rs.65,830 Lakhs (20.76\% of total) in the previous year 2008-09.

The industry group (NIC Code 20) manufacturing of chemicals and chemical products had the second largest share in the total fixed capital of Rs.28,866 lakhs (9.80\% of total) during the year 2009-10

The industry group (NIC code 14) Manufacturing of wearing apparel, industry group (NIC code 15) Manufacturing of leather and related products, industry group (NIC Code 16) Manufacturing of wood and products of wood and cork except furniture, industry group (NIC code 18) Printing \& reproduction of Recorded media, industry group (NIC code 21) Manufacturing pharmaceuticals, medicinal chemical and botanical products, industry group (NIC code 26) Manufacture of Computer, electronic and optical products, industry group (NIC code 27) Manufacturing electric equipment, industry group (NIC code 29) Manufacturing Motor vehicles, trailers and semi-trailers, industry group (NIC Code 31) Manufacturing Furniture, industry group (NIC code 32) Other manufacturing, industry group (NIC code 33) Manufacturing Repair and installation of Machinery \& equipment and industry group (NIC Code 33) Other industries have shown an upward movement in investing Fixed capital during the reporting year 2009-10 over the previous year 2008-09.

Industry group (NIC Code 10) Manufacture of Food products, industry group (NIC Code 11) Manufacture of Beverages, industry group (NIC Code 13) Manufacture of Textiles, industry group (NIC code 17) Manufacture of Paper and paper products, industry group (NIC Code 22) Manufacture of Rubber and plastic products, industry group (NIC Code 23) Manufacture of non-metallic mineral products, industry group (NIC Code 24)

Manufacture of Basic metals, industry group (NIC Code 25) Manufacture of Fabricated Metal products, except machinery and equipment, industry group (NIC Code 28) Manufacture of machinery and equipment n.e.c. and industry group (NIC Code 30) Manufacture of other transport equipment have shown downward trend in investing Fixed capital in the year 2009-10 over 2008-09.

It has been observed that in total the investment of Fixed Capital in all the factories had decreased by $7.11 \%$ in the year 2009-10 over 2008-09.

TABLE -5
Distribution of Fixed Capital (NIC-08: 2 digit) 2008-09 \& 2009-10

## 5. Distribution of Working Capital

Table- 6 and the following Chart show the Distribution of Working Capital at 2 Digit level of NIC code with illustration of industries in the years 2008-09 and 2009-10.

In the year 2009-10, the Industry group (NIC code 26) Manufacture of computer, electronic \& optical products had registered the largest share in the total working capital worth Rs.58,724 lakhs (23.93\% of total) whereas the industry group (NIC Code 28) Manufacture of Machinery and equipment had registered highest share in total working capital with Rs. 51752 lakhs (20.82\% of total) during the previous year 2008-09.

The second largest share in the total working capital had registered in the industry group (NIC code 22) Manufacturing Rubber and plastic products with Rs.32,516Lakhs (13.25\% of total) during the reporting year 2009-10. The industry group (NIC Code 26) Manufacture of computer, electronic and optical products had registered the second largest share worth Rs.48,896 lakhs (19.67\% of total) during the previous year 2008-09.

The industry group (NIC code 10) Manufacturing Food products, industry group (NIC Code 11) Manufacture of Beverages, industry group (NIC Code 15) Manufacturing leather and related products, industry group (NIC code 16) Manufacture of wood and products of wood and cork, except furniture; manufacture of articles of straw and plaiting materials, industry group (NIC code 17) Manufacture of paper and paper products, Industry group (NIC code 18) Printing and reproduction of recorded media, industry group (NIC code 21) Manufacture of pharmaceuticals, medicinal \& botanical products, industry group (NIC Code 23) Manufacture of other non-metallic mineral products, industry group (NIC code 26) Manufacturing computer and electronics, industry group (NIC Code 32) Other manufacturing and industry group Other have shown an upward movement in working capital in 2009-10 over the previous year 2008-09.

The industry group (NIC code 13) Manufacturing Textiles, the industry group (NIC Code 14) Manufacture of wearing apparels, the industry group (NIC code 17) Manufacture of paper and paper products, the Industry group (NIC code 20) Manufacture of chemicals and chemical products, the industry group (NIC Code 24) Manufacture of Basic metals, the industry group (NIC Code 25) Manufacture of Fabricated Metal Products, industry group
(NIC code 27) Manufacture of Electric equipment, industry group (NIC Code 28) Manufacture of machinery and equipment n.e.c., industry group (NIC code 29) Manufacture of Motor vehicles, trailers and semi-trailers industry group (NIC code 30) Manufacture of other transport equipment and industry group (NIC Code 33) Repair and installation of Machinery \& equipment have shown downward movement in Working Capital in 2009-10 over the previous year 2008-09.

It has been observed that the working capital in all the factories has decreased by $1.31 \%$ during the reporting year 2009-10 over the previous year 2008-09.

TABLE -6
Distribution of Working Capital (NIC-08: 2 digit) 2008-09 \& 2009-10

## 6. Distribution of Gross Value of Plant \& Machinery

Table-7 and the following Chart show the Distribution of Working Capital at 2 Digit level of NIC code with illustration of industries in the years 2008-09 and 2009-10.

It is observed that both in the reporting year 2009-10 and in the previous year 200809, the industry group (NIC Code 23) Manufacture of other Non-Metallic Mineral Products had the largest share of Gross Value of Plant and Machinery with Rs.68,094 Lakhs (23.33\% of total) and Rs.66,370 Lakhs (21.72\% of total) respectively.

It is noticed that the second largest share in the gross value of Plant \& Machinery was of the industry group (NIC Code 20) Manufacture of Chemicals \& Chemical products and it has the share of Rs.34,801 Lakhs (11.93\% of total) in 2009-10 and the industry group (NIC Code 22) had the second largest share of Rs.53,046 Lakhs (17.36\% of total) in 2008-09.

The industry group (NIC Code 10) Manufacture of Food products, the industry group (NIC Code 11) Manufacture of Beverages, the industry group (NIC Code 13) Manufacture of Textiles, industry group (NIC Code 15) Manufacture of Leather and related Products (NIC Code 18) Printing \& Reproduction of Recorded Media, industry group (NIC Code 21) Manufacture of pharmaceuticals medicinal chemical and botanical products, industry group (NIC Code 23) Manufacture of non-metallic mineral products, the industry group (NIC Code 26) Manufacture of computer, electronic \& optical products, industry group (NIC Code 27) Manufacture of electrical equipment, industry group (NIC code 29) Manufacture of Motor vehicles, Trailers and semi-trailers, industry group (NIC Code 32) Other Manufacturing and industry group (NIC Code 33) Repair \& installation of Machinery \& equipment have shown an upward movement in Gross Value of Plant and Machinery during the reporting year 2009-10 over the preceding year 2008-09.

The industry (NIC Code 17) Manufacture of Paper and Paper products, industry group (NIC Code 20) Manufacture of Chemicals and Chemical Products, industry group (NIC Code 22) Manufacture of Rubber \& Plastics products, industry group (NIC Code 24) Manufacture of Basic Metals, industry group (NIC code 30) Manufacture of Other Transport equipment and industry group Other have shown downward movement during the reporting year 2009-10 over the previous year 2008-09.

Overall, the Gross Value of Plant \& Machinery has decreased by $4.51 \%$ in the year 2009-10 (Rs.2,91,813 Lakhs) over the previous year 2008-09 (Rs.3,05,594 lakhs).

## 7. Distribution of Gross Value of Plant \& Machinery

Table-8 and the following Chart show the Distribution of Total Output at 2 Digit level of NIC code with illustration of industries in the years 2008-09 and 2009-10.

As in the previous year 2008-09, during the year 2009-10 also the same industry group (NIC Code 26) Manufacture of office, computer, electronic \& Optical Products had recorded the largest share in the Total Output. It was Rs.3,01,408 Lakhs (18.41\% of total) in 2009-10, whereas in the previous year 2008-09, it was Rs.2,63,452 lakhs (18.10\% of total)

The second largest share in the total Output was of the Industry group (NIC Code 28) Manufacture of Machinery and equipment, n.e.c., during the reporting year 2009-10. It was Rs.1,94,679 lakhs (11.89\% of total). In the previous year 2008-09, the same industry group had occupied the second largest share of total value of output of 2,42,938 lakhs (16.69\% of total)

The Industry group (NIC Code 10) Manufacture of Food products, Industry group (NIC Code 13) Manufacture of Textiles, industry group (NIC Code 14) Manufacture of Wearing apparel, industry group (NIC Code 15) Manufacture of Leather \& related products, industry group (NIC Code 17) Manufacture of Paper and Paper products, industry group (NIC Code 18) Printing and reproduction of Recorded media, industry group (NIC Code 21) Manufacture of pharmaceuticals, medicinal chemical \& Botanical products, industry group (NIC Code 22) Manufacture of Rubber and Plastics Products, industry group (NIC Code 23) Manufacture of other Non-metallic Mineral Products, industry group (NIC Code 26) Manufacture of Computer, electronic, optical products, industry group (NIC Code 27) Manufacture of electrical equipment, industry group (NIC Code 29) Manufacture of Motor Vehicles, Trailers \& semi-trailers, industry group (NIC Code 31) Manufacture of Furniture, industry group (NIC Code 33) Repair and installation of Machinery and equipment and other industry group have shown an upward movement in Total Output in 2009-10 over 2008-09.

The industry group (NIC Code 11) Manufacture of Beverages, industry group (NIC Code 20) Manufacture of chemicals \& chemical products, industry group (NIC Code 24) Manufacturing Basic Metals, industry group (NIC Code 25) Manufacture of Fabricated

Metal products except Machinery \& equipment, industry group (NIC Code 28) Manufacture of Machinery and equipment, industry group (NIC Code 30) Manufacture of other Transport Equipment and industry group (NIC Code 32) Other Manufacturing group have shown downward movement in Total Output in 2009-10 over 2008-09.

Overall, decrease of 12.45 \% was noticed in Total Output in the year 2009-10 (Rs.16,36,966 lakhs) over the previous year 2008-09 (Rs.14,55,756 lakhs).

TABLE -8
Distribution of Output (NIC-08: 2 digit) 2008-09 \& 2009-10

## 8. Distribution of Gross Value Added

Table-9 and the following Chart show the Distribution of Gross Value Added at 2 Digit level of NIC code with illustration of industries in the years 2008-09 and 2009-10.

It has been observed from the table that while the industry group (NIC Code 28) Manufacture of Machinery and equipment, n.e.c., had the largest share of Gross Value Added in the reporting year 2009-10, whereas the industry group (NIC Code 26) Manufacture of computer, electronic \& optical products had the largest share of Gross Value Added in the preceding year 2008-09. Their share of Gross Value Added was in the order of Rs.96,718 lakhs (25.35\% of total) and Rs. 71,832 lakhs (21.78\% of total)

The industry group (NIC Code 26) Manufacture of computer, electronic \& optical products had the second largest share of Gross Value Added during the reporting year 2009-10. Its share was Rs.94,949 lakhs (22.93\% of total. In 2008-09, industry group (NIC Code 28) Manufacture of Machinery and equipment, n.e.c., and its share was Rs.56,857 lakhs (17.24\%) of the total)

The industry group (NIC Code 13) Manufacture of Textiles, industry group (NIC Code 14) Manufacture of Wearing Apparel, industry group (NIC Code 15) Manufacture of Leather \& related products, industry group (NIC Code 16) Manufacture of wood and products of wood and cork, except furniture; Manufacture of articles of straw and plaiting materials, industry grop (NIC Code 17) Manufacture of paper and paper products, industry group (NIC Code 21) Manufacture of pharmaceuticals, medicinal chemical and botanical product, industry group (NIC Code 24) Manufacture of chemicals and chemical products, the industry group (NIC Code 25) Manufacture of Fabricated metal products, except machinery and equipment, industry group (NIC Code 26) Manufacture of computer, electronic \& optical products, industry group (NIC Code 27) Manufacture of electrical equipment, industry group (NIC Code 28) Manufacture of Machinery \& equipment, n.e.c., industry group (NIC Code 29) Manufacture of motor vehicles, trailers \& semi-trailers, industry group (NIC Code 31) Manufacture of furniture, industry group (NIC Code 32) Other Manufacturing and industry group (NIC Code 33) Repair and Installation of Machinery and equipment and industry group other have shown an increasing trend in Gross Value Added in 2009-10 over 2008-09.

| 12 | 23 | Manufacture of other Non-Metallic Mineral Products | 16801 | 5.10 | 15671 | 3.78 | -6.73 |
| 13 | 24 | Manufacture of Basic Metals | 5636 | 1.71 | 11891 | 2.87 | 110.98 |
| 14 | 25 | Manufacture of Fabricated Metal products except Machinery \& Equipment | 13431 | 4.07 | 14443 | 3.49 | 7.53 |
| 15 | 26 | Manufacture of Computer, Electronic \& Optical products | 71832 | 21.78 | 94949 | 22.93 | 32.18 |
| 16 | 27 | Manufacture of Electrical Equipment | 8883 | 2.69 | 23603 | 5.70 | 165.71 |
| 17 | 28 | Manufacture of Machinery \& Equipment, n.e.c. | 56857 | 17.24 | 96718 | 23.35 | 70.11 |
| 18 | 29 | Manufacture of Motor vehicles, Trailers \& Semitrailers | 10019 | 3.04 | 13791 | 3.33 | 37.65 |
| 19 | 30 | Manufacture of Other Transport Equipment | 2101 | 0.64 | 1851 | 0.45 | -11.90 |
| 20 | 31 | Manufacture of Furniture | 317 | 0.10 | 552 | 0.13 | 74.13 |
| 21 | 32 | Other Manufacturing | 528 | 0.16 | 4648 | 1.12 | 780.30 |
| 22 | 33 | Repair \& installation of Machinery \& Equipment | 1393 | 0.42 | 4004 | 0.97 | 187.44 |
| 23 | Other | Other | 3766 | 1.14 | 6179 | 1.49 | 64.07 |
|  |  | Total | 329735 | 100.00 | 414133 | 100.00 | 25.60 |

The industry group (NIC Code 10, 11,18, 20, 22, 23, 30) Manufacture of food products, Manufacture of beverages, printing \& Reproduction of Recorded media, Manufacture of Chemicals and chemical products, Rubber \& Plastics products, Manufacture of other Non-metallic mineral products, and Manufacture of other transport equipment have shown downward trend in Gross Value Added in 2009-10 over 2008-09.

Overall, an increase of $25.60 \%$ was registered in Gross Value Added in 2009-10 (Rs.4,14,133 lakhs) over 2008-09 (Rs.3,29,735 lakhs)

## 9. Distribution of Net Value Added

Table-10 and the following Chart show the Distribution of Net Value Added at 2 Digit level of NIC code with illustration of industries in the years 2008-09 and 2009-10.

It has been observed from the table that while the industry group (NIC Code 28) Manufacture of Machinery and equipment, n.e.c., had the largest share of Net Value Added in the reporting year 2009-10 and its share was Rs.93,862 lakhs (24.41\% of the total) and in the previous year 2008-09 the industry group (NIC Code 26) Manufacture of computer, electronic \& optical products had the largest share of Net Value Added with its share of Rs. 71088 lakhs ( $23.76 \%$ of total).

The industry group (NIC Code 26) Manufacture of computer, electronic \& optical products had the second largest share of Net Value Added during the reporting year 200910. Its share was Rs.92,360 lakhs (24.02\% of total). In 2008-09, industry group (NIC Code 28) Manufacture of Machinery and equipment, n.e.c., and its share was Rs.54,400 lakhs (18.18\% of the total)

The industry group (NIC Code 13) Manufacture of Textiles, industry group (NIC Code 14) Manufacture of Wearing Apparel, industry group (NIC Code 15) Manufacture of Leather \& related products, industry group (NIC Code 16) Manufacture of wood and products of wood and cork, except furniture; Manufacture of articles of straw and plaiting materials, industry group (NIC Code 17) Manufacture of paper and paper products, industry group (NIC Code 21) Manufacture of pharmaceuticals, medicinal chemical and botanical product, industry group (NIC Code 24) Manufacture of Basic Metals, the industry group (NIC Code 25) Manufacture of Fabricated metal products, except machinery and equipment, industry group (NIC Code 26) Manufacture of computer, electronic \& optical products, industry group (NIC Code 27) Manufacture of electrical equipment, industry group (NIC Code 28) Manufacture of Machinery \& equipment, n.e.c., industry group (NIC Code 29) Manufacture of motor vehicles, trailers \& semi-trailers, industry group (NIC Code 30) Manufacture of other transport equipment, industry group (NIC Code 33) Repair and installation of Machinery and equipment and industry group other have shown an increasing trend in Gross Value Added in 2009-10 over 2008-09.

The industry group (NIC Code 10) Manufacture of food products, industry group (NIC Code 11) Manufacture of beverages, industry group (NIC Code 18) printing \& Reproduction of Recorded media, industry group (NIC Code 20) Manufacture of Chemicals and chemical products, industry group (NIC Code 22) Manufacture of Rubber \& Plastics products, industry group (NIC Code 23) Manufacture of other Non-metallic mineral products, industry group (NIC Code 31) Manufacture of furniture and industry group (NIC Code 32) Other Manufacturing have shown downward trend in Net Value Added in 200910 over 2008-09.

Overall, an increase of $28.54 \%$ was registered in Net Value Added in 2009-10 (Rs.3,84,544 lakhs) over 2008-09 (Rs.2,99, 159 lakhs)

TABLE -10

## 10. Distribution of Gross Fixed Capital Formation (GFCF)

Table-11 and the following Chart show the Distribution of Gross Fixed Capital Formation at 2 Digit level of NIC code with illustration of industries in the years 2008-09 and 2009-10.

It has been observed from the table that while the industry group (NIC Code 22) Manufacture of Rubber and Plastic products had the largest share in both the years 200910 and 2008009. Their share of Gross Fixed Capital Formation during the reporting year 2009-10 and 2008-09 was Rs. 7,825 lakhs ( $18.46 \%$ of total) and Rs. 37,966 lakhs ( $49.42 \%$ of total) respectively. However, it is noticed that the industry group (NIC Code 31) Manufacture of Furniture had recorded the highest percentage increase of $28100 \%$ in 2009-10 over the previous year 2008-09.

The second largest share in Gross Fixed Capital Formation was of the industry group (NIC Code 26) Manufacture of computer, electronic \& optical products in 2009-10 whereas the industry group (NIC Code 28) Manufacture of Machinery \& equipment n.e.c. had recorded the second largest share in GFCF in the pevious year 2009-10. Their share were in the order of Rs.7,290 lakhs (17.20\% of total and Rs. 8447 lakhs (11.00\% of total) respectively.

The industry groups (NIC Codes 11, 14, 18, 21, 23, 25, 26, 29, 31 and 32) Manufacture of Beverages, Manufacture of Wearing Apparel, Printing \& Reproduction of Recorded Media, Manufacture of pharmaceuticals, medicinal chemical and botanical products, manufacture of other Non-metallic mineral products, manufacture of Fabricated metal products, except Machinery \& equipment, Manufacture of motor vehicles, trailers \& semi-trailers, manufacture of furniture and other manufacturing have shown increasing trend in the year 2009-10 over 2008-09.

At the same time, industry group (NIC code 10, 13, 15, 16, 17, 20, 22, 24, 27, 28, 30, 33 and other) Manufacture of Food products, Manufacture of Textiles, leather \& related products, Manufacture of wood and of products of wood and cork, except furniture, manufacture of articles of straw and plaiting materials, Manufacture of paper \& paper products, Manufacture of chemicals and chemical products Manufacture of Rubber \& plastic products, Manufacture of Basic metals, Manufacture of electrical equipment,

Manufacture of Machinery and equipment, n.e.c., Manufacture of other transport, equipment, repair and installation of Machinery and equipment and industry group other have shown decreasing trend in 2009-10 over 2008-09.

Overall, in total, a decrease of $44.83 \%$ was recorded in Gross Fixed Capital Formation in the year 2009-10 over 2008-09.

## 11. Distribution of Profit

Table-12 and the following Chart show the Distribution of Profit at 2 Digit level of NIC code with illustration of industries in the years 2008-09 and 2009-10.

It has been observed from the table that the industry group (NIC Code 28) Manufacture of Machinery and equipment, n.e.c. had recorded the largest share of profit in the reporting year 2009-10. Its share was Rs.83,742 lakhs (30.92\% of total) and the industry group (NIC Code 26) Manufacture of computer, electronic \& optical products had recorded the largest share of profit in the previous year 2008-09. Its share was Rs.57,783 lakhs (28.77\% of total).

The second highest share of profit was of the industry group (NIC Code 26) in the year 2009-10 with Rs.77,411 lakhs (28.59\% of total) and in 2008-09 the industry group (NIC Code 28) Manufacture of Machinery and equipment, n.e.c had the second largest share. It was Rs.45,532 lakhs (22.67\% of total)

The industry group (NIC Code 16) Manufacture of wood and of products of wood and cork, except furniture; Manufacture of articles of straw and plaiting materials, industry group (NIC Code 17) Manufacture of paper and paper products, industry group (NIC Code 21) Manufacture of pharmaceuticals, medicinal chemical and botanical products, industry group (NIC Code 23) Manufacture of other Non-metallic mineral products, industry group (NIC Code 24) Manufacture of other Non-metallic Mineral products, industry group (NIC Code 24) Manufacture of Basic Metals, industry group (NIC Code 25) Manufacture of Fabricated Metal products, except Machinery \& equipment, industry group (NIC Code 26) Manufacture of computer, electronic \& optical products, industry group (NIC Code 27) Manufacture of electrical equipment, industry group (NIC Code 28) Manufacture of Machinery \& Equipment n.e.c., industry group (NIC Code 29) Manufacture of Motor vehicles, trailers \& semi-trailers, industry group (NIC Code 30) Manufacture of other transport equipment, industry group (32) Other manufacturing, industry group (NIC Code 33) Repair \& installation of machinery \& equipment and other industry group have shown positive achievement in profit making in the year 2009-10 over 2008-09.

The industry group (NIC Code 10) Manufacture of Food products, the industry group (NIC Code 11) Manufacture of Beverages, industry group (NIC Code 13)

Manufacture of Textiles, industry group (NIC Code 14) Manufacture of Wearing apparel, industry group (NIC Code 15) Manufacture of Leather and related products, industry group (NIC Code 18) Printing \& reproduction of recorded media, industry group (NIC Code 20) Manufacture of chemicals and chemical products, industry group (NIC Code 22) Manufacture of Rubber \& Plastic products, industry group (NIC Code 31) Manufacture of Furniture and industry group (NIC Group 32) Other Manufacturing have shown an increasing trend of profit in the year 2009-10 over 2008-09.

The overall profits earned by all the industry groups together were estimated at Rs.2,70,803 lakhs in 2009-10 as against Rs.2,00,859 lakhs in 2008-09. Thus an increase of $34.82 \%$ of profit was registered during the year 2009-10 over the previous year 2008-09.

## 12. Distribution of Employees and their Salary \& Wages

Table-13 \& 14 show the Distribution of Employees and their salaries and wages in the year 2009-10 and 2008-09.

In 2009-10 the industry group (NIC Code 20) Manufacture of Chemical and Chemical Products had the maximum number of employees with 6151, in which workers were 5190 in number and the rest of 961 in number were managerial, supervisory and other employees. Their wages and salaries including Bonus was Rs.5,466 lakhs thus each employee received emoluments, Rs.88,864 per year. In 2008-09, the same industry group had the maximum number of employees with 6644, in which workers were 5566 in number and the rest of 1078 in number were managerial, supervisory and other employees. Their wages and salaries including bonus was Rs. 5426 lakhs thus each employee received emoluments Rs.81,668 per year.

Overall in 2009-10, there were 50976 employees in which workers were 40389 in number and the rest 10587 were managerial, supervisory and other employees. Their total wages and salaries including Bonus worth Rs.68,447 lakhs, thus the total emoluments per employee was Rs.1,34,273. In the preceding year 2008-09, there were 48,994 employees in which workers were 39,356 in number and the rest of 9638 in number were managerial, supervisory and other employees. Their total wages and salaries including Bonus worth Rs.57,017 lakhs, thus the total emoluments per employee was Rs.1,16,375 per year. The increase in number of persons employed in all the factories and increase in their total wages and salaries including bonus were observed by 4.01\% and 20.05\% respectively in 2009-10 over 2008-09.

TABLE -13
Distribution of Wages/Salaries to Workers/Employees (NIC-08: 2 digit) 2008-09
